

ARIS PROJECT

AI SKILLS FOR ICT PROFESSIONALS

ARIS aims:

1. **to design** a comprehensive and up-to-date training course in AI technologies and practical applications,
2. **to introduce** modern training delivery methods and innovative open-access pedagogical resources,
3. **to facilitate** the integration of AI skills requirements into the EU certification and standardization schemes.

ARIS target groups:

- ✓ ICT professionals in need of CVET
- ✓ Students in need of IVET
- ✓ VET providers and employers
- ✓ Sectoral stakeholders
- ✓ Policy-makers
- ✓ Other European learners

Start date: 01-09-2019

End date: 28-02-2022

Project Reference: 2019-1-BE01-KA202-050425

ARIS's main objective:

to form a Strategic Partnership to **strengthen** the key digital competences in VET provision for ICT professionals by offering an up-to-date curriculum and Open Educational Resources (OERs) in AI to **address** the existing occupational skills needs and mismatches.

ARIS main results:

- ✓ **Learning outcomes for training provision** in the different AI technologies & practical applications for ICT professionals.
- ✓ **Learning units** (curriculum structure), trainers' toolkit, and VET integration guidelines.
- ✓ **Open Educational Resources for AI** technologies and applications.
- ✓ **ARIS Vocational Open Online Course** infrastructures & content on AI technology applications for ICT professionalism.
